IMPROVE QUALITY OF SOFIA BREAD

SET UP NEW BAKERIES -- Sofia Izgrev, 19 Aug 50

According to orders of the Council of Ministers and the Central Committee of the Bulgarian Communist Party, the quality of bread produced in Sofia has been substantially improved and a number of up-to-date, well equipped bakeries have been established throughout the city. A greater variety of bread has also been put on the market. Besides the standard type, various wheat and rye varieties are sold at free-market prices in small loaves of 400, 200, and 100 grams, as well as special sandwich bread, which is very popular with the consumers. Pastries also will be on sale in the near future.

However, the quality of bread has not yet been sufficiently improved. Three courses are being conducted by the Bread and Bread Products municipal enterprise to study and introduce Soviet methods of bread production.
